### Pinnacle Clients

### Who we are ?

#### Pinnacle: A Trusted Partner

Pinnacle International delivers lean information technology to govern, manage and secure IT across the organization. Based in Atlanta, Pinnacle is an authorized and preferred CA Technologies Enterprise Software Reseller and Services Partner delivering Enterprise IT solutions.

Pinnacle teams work very closely with the CA Technologies Global Solutions Engineering team for product enhancement and custom development work for customers worldwide.

Pinnacle offers consulting services to help companies from 100 employees to the Fortune 100:

- improve the operational efficiency and effectiveness of IT organizations by providing scalable and configurable foundations
- organize your data and information systems within the context of your unique business
- select the right technology to solve business problems
- architect, implement and customize the solution
- address the critical need of increasing revenues, automating processes, managing costs and deepening user relationships

### Why Pinnacle ?

We deliver comprehensive solutions customized to your business needs. Pinnacle's core competency teams are led by industry experts with an impressive track record of deploying successful technology solutions for large companies.

Our diverse domain expertise across all verticals is the driving force behind Pinnacle's success, and we leverage our software development experience on all client engagements.
